

HUI

CENTERED AROUND YOU

Vanessa Popp, a Coach and Planner for HUI, was able to flex her work schedule to be successful in school and complete her master's degree in counseling. HUI supported her leaving early to attend school, without having to take vacation, and she worked on a 4 day schedule to help with classes and homework.

When asked Vanessa said, "When I was gone, there was never a time that I did not feel confident in my team. They all stepped up to take the lead. Our team works hard to be successful and complete our customer's goals each and every day."

"At HUI, I work during the same time frame that my kids are in school, and if they have a concert I can leave for an hour and come back. The HUI Team is very good at understanding everyone has a family."
